

## **Why Pay For Parking**

It cost about \$100-\$500 per year to park at the University of Utah. The University gives faculty a bus/Trax pass so it seem's silly to not take advantage of public trasportation. I not only save on parking but in gas for my car.

The other advantage is I have extra time just for me while riding the bus & Trax. I read, sleep & just enjoy looking out the window.

No more stress with all those crazy drivers.
